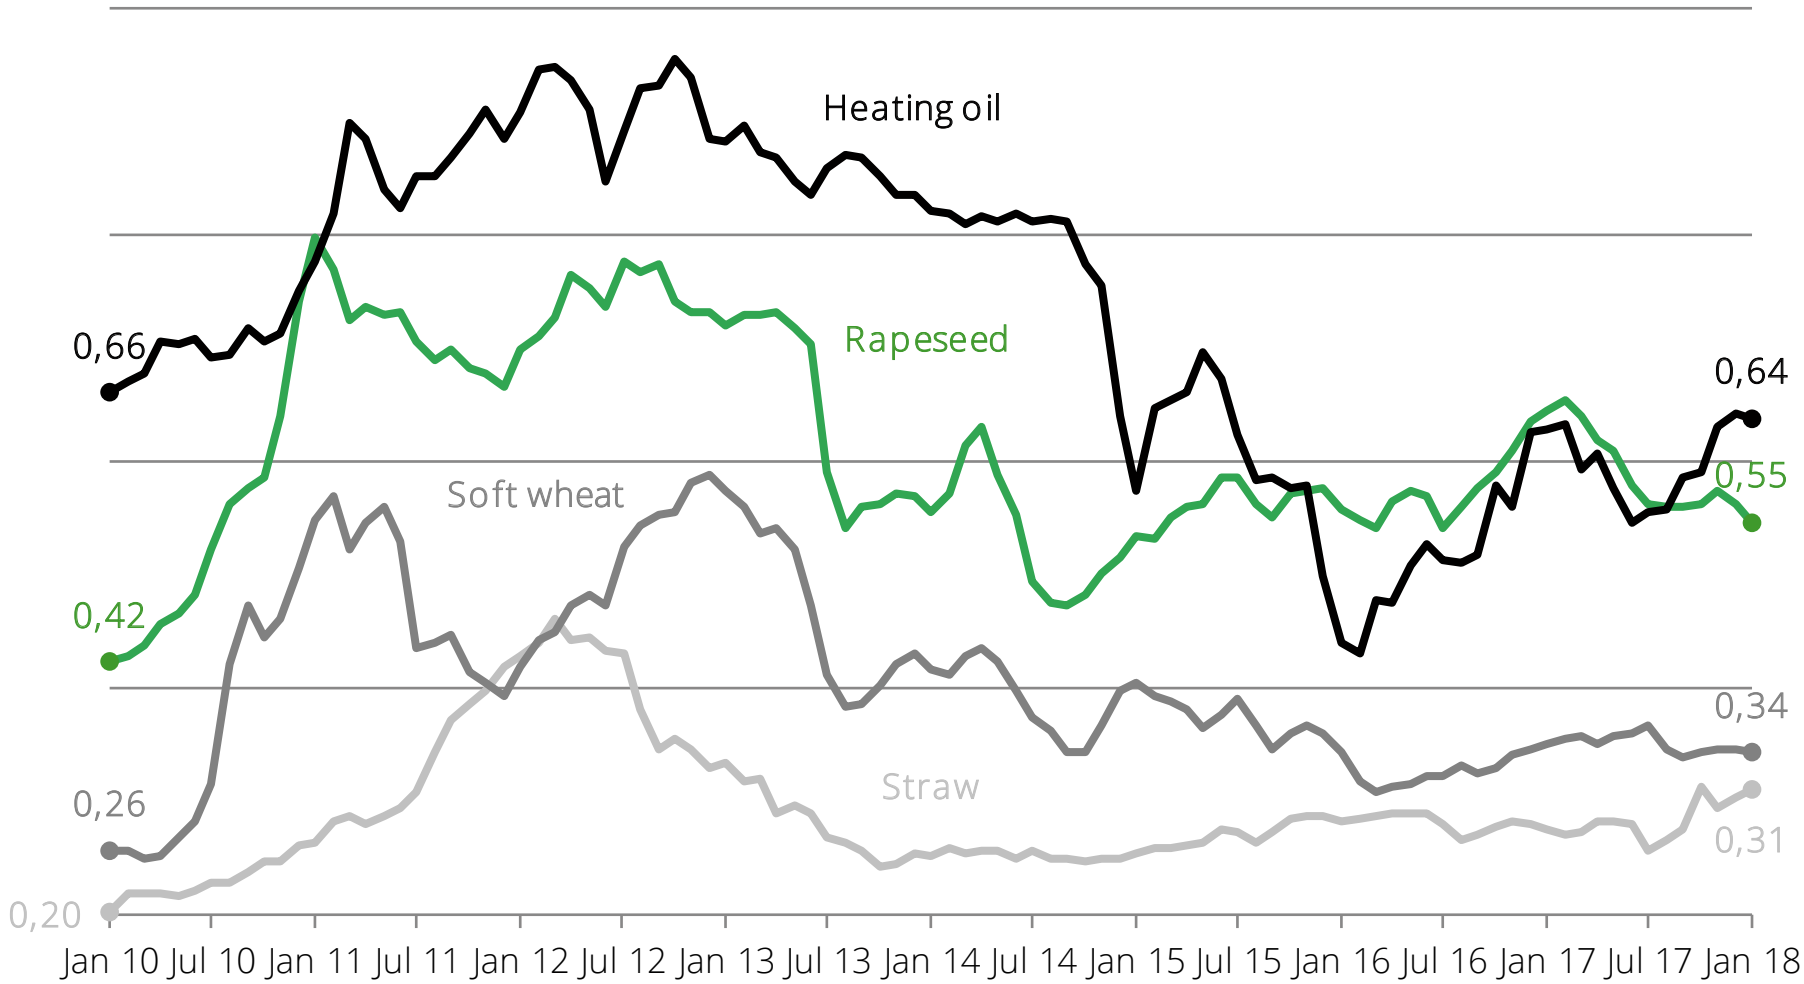
Foodstuff cheaper than energy!?

Prices of soft wheat, rapeseed, straw and fuel oil, converted in calorific value equivalents, in Euros per kg and litre respectively, including VAT.



Source: AMI

Converted ex-farm prices of agricultural products per calorific value equivalent (1 litre of fuel oil = 1.35 kg rapeseed, = 1.95 kg soft wheat, = 2.9 kg straw) and fuel oil price for deliveries of 3,500 litres or more free buyer's address.
